Welcome to our 19th Silver Genetics Production Sale. We want to thank all our past buyers as well as anyone taking the time to look through our catalog this year. We continually strive to produce quality livestock to fit your needs and feel blessed that you have chosen our genetics to enhance your herd. Each year at this time we enjoy looking back to see how far we've come since our first sale in 2005. On the inside back cover are last year's results from harvesting cattle, proving how well the offspring of our bulls have carried through to the rail. We have been very pleased with the carcass data we've collected over the past 20 years.

This year the bull offering has left an impression on us. The targeted feed program and dry winter has helped these bulls gain easily and naturally. This group of Composites, Salers, and Red Angus ranging from yearlings to 18 month old bulls are extremely consistent. They are ready for green grass and breeding season. The homozygous black and polled tests are complete and printed in the catalog.

We are offering a larger group of spring pairs, with a broad spectrum of pedigrees, this year. This 2 for 1 option is a great way to gain a herd sire prospect or replacement female for your herd. We are also offering a special group of 5 yearling heifers all sired by Velocity. It is hard to part with these heifers but the replacement lot is full.

Please feel free to contact us with any questions. We look forward to seeing you March 26th. If you are unable to attend the sale, it will be broadcast live on DVAuction.

David and Janelle Frueh

Scott, Stacy, Landon and Easton Liebhart

We were honored to have the 2022 Missouri State Fair Beef Shows dedicated to us.

1. **Inspection of cattle.** All cattle will be available for inspection at the sale site beginning Saturday, March 25, 2023 at 1 pm. Prior to sale date cattle may be viewed at the ranch.
2. **Terms.** Cash. Please settle for cattle promptly. No animals will be permitted to be removed from the premises until settlement is made.
3. **Health.** All bulls have been given 5X LeptoVibrio, IBR, BVD, P13, BRSV, Pinkeye vaccination, Multimin injection, wormed and poured and semen tested. All bulls are PI BVD tested negative. All females have been vaccinated the same way. All calves have been given a 7 way BlacklegHaemophilus and pinkeye vaccination. Health certificates will be furnished for shipment where needed. All cattle are on a Vita Ferm mineral program.
4. **Announcements.** From the block will take precedence over information in the catalog.
5. **Liability.** All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The owners and auction service assume no liability for property loss or any accidents that may occur.
6. **Insurance.** Will be available sale day at the settlement office.
7. **Purchasers Risk.** Each animal becomes the risk of the purchaser as soon as sold.
8. **Guarantee.** All animals sold in this sale are guaranteed to be breeders, provided they are properly handled and cared for. If an animal fails to breed the seller must be notified within 6 months of sale date and shall have 6 months to test the animal. Guarantee does not apply to sick or injured animals.
9. **Delivery.** Free trucking to central locations within 200 miles. Locations over 200 miles, we will help coordinate the most economical option possible. Please contact us if you have any questions prior to the sale.

Milk 12  
MWW 40  
Stay 17  
CED 9.4

- **Homozygous Black – Homozygous Polled**
- 133k is a powerhouse herd bull prospect that is super balanced from end to end and has a killer look to him.
- We saw his sire, MJB Velocity, a couple of summers ago in Montana at Dan Deichman's and felt extremely confident he would mate well with our cows. He has proven himself to be even better than we had hoped.
- This bull is very attractive, functional, sound, long fronted, and comes from a great TNT daughter.
- Ranks in top 15% for Stay and 10% for Doc

## Lot 2 LKL KIOWA 271K

Born: 1/1/22 • HOMO BLK • HOMO PLD • 5/8 SA 3/8 AN

- **Homozygous Black – Homozygous Polled**
- Kiowa combines a whole list of good things as well as a pedigree that has cow maker written all over it.
- Starting back with 311N, he adds Xclusive, Masterpiece and Fabian together in a massive, attractive package.
- Take advantage of this moderate birth sire to take your herd to the next level.
- Ranks in the top 20% for Milk

## Lot 3 DJF KNOX 616K

Born: 1/2/22 • BLACK • HOMO PLD • 3/4 SA 1/4 AN

- **Homozygous Black**
- 643K will introduce our customers to a new herd bull that we bought from Charlie Maxfield, CBM Bare Back 91G.
- We really like the moderate frame and thickness we are getting from his calves as well as having big deep middles.
- 643K is well put together with heavy muscle and length of side.
- His dam is a Gold Dam that we absolutely love and also adds another Gold Dam to the pedigree in Borderline's mother.
- Ranks in the top 25% for both WW and YW
- WWR 107 Dam's NR 109 on 4 calves

**Lot 16 ELS KEARNEY 845K**

- His dam is a very feminine Fat Tony daughter that has a great phenotype.
- Ratio was 105 for weaning in our fall herd. Ranks in top 34% for WW

# Yearling Heifers

## Lots 53-57

After having an abundance of outstanding Velocity females born last spring, we have decided to package together a group of 5 open heifers. These heifers are in tip top condition and are all going to make great cows and could also be picked through to find some high caliber show heifers. We are extremely happy with these heifers and feel they are coming from the top of our herd. They are all deep sided with lots of body dimension, long fronted, and big topped. Their pedigrees are also stacked with some of the breed's best with three being out of Whiskey River daughters, one out of a Borderline, and one out of a Zepplin. This is a great opportunity to purchase heifers that can start a herd, inject some new blood into a herd, or fill some stalls in the show barn, the options are endless with these girls.

Will sell choice or buyer can clean the pen and take all.

## SILVER GENETICS BULLS ARE WORKING UNTIL THE END

Alan and Kirby Stiens of Stiens Land & Cattle from Maryville, Missouri, have been breeding with Silver Spur genetics since the mid-1990s. As they raise their own replacement heifers, Alan stated, “The  $\frac{3}{4}$  blood Salers females are the best and I want a composite bull to put back on those females to keep my herd at  $\frac{5}{8}$  to  $\frac{3}{4}$  Salers.” They have continued to purchase 100%, both red and black, bulls from Silver Spur genetics each year to continue growing their progressive herd.

Stiens Land & Cattle fed with PM Beef group based at Knox County Feeders for the first 10 years. Since the early 2000’s, they have been feeding their cattle at home and marketing them privately to packers. Alan has continued to feed out all the bulls for our sale since the first in 2005, and custom feeds and markets for select local beef producers. Many of those producers are using Silver Spur genetics as well.

Below is data from the most recent harvest in November 2022. These cattle were owned by Stiens Land & Cattle and harvested by Tyson Fresh Meats in Dakota City, NE:
