Annual Bull Sale

WEDNESDAY, APRIL 12, 2023

12 NOON MDT | LA JUNTA LIVESTOCK COMMISSION CO. | LA JUNTA, CO

SELLING: 28 2-YR OLD SALERS & OPTIMIZER BULLS
16 2-YR OLD HEREFORD BULLS
12 YEARLING SALERS & OPTIMIZER BULLS

Dear Fellow Cattlemen:

Welcome to our 2023 Bull Sale. We have a great set of bulls ready for your inspection. These bulls have grown well on a no grain diet. This winter they have been fed sorghum hay or triticale hay, plus alfalfa pellets and sunflower pellets. They are not carrying any excess condition at all and are ready for heavy service.

The 2 year-old Salers and Optimizer bulls are out of well known and good doing lines: Out West, Topeka, Anders and others. The Angus bulls introduced are very proven bulls with good EDPs and good disposition. We have also selected Angus bulls that can go to higher altitudes.

The 2 year-old Hereford bulls are L1 and Sensation. Our registered Hereford cows go back to Carpenter-Williams, 26 Bar (John Wayne) and a few others. the main bull you'll see in these Hereford pedigrees is UPS Domino 3027. He has been a great bull for the Hereford breed. Born in 2003, he is right now today a trait leader in 12 traits including a CED: 11.7, BW: -0.8, MM: 36, MCW: 51, BMI: 600, BII: 698 and CHB: 151. These Hereford bulls are rugged and right for the times.

The yearling Salers and Optimizer bulls were weaned in November and haven't had any corn or milo - just hay and protein. They are a fancy, good doing set of bulls and many will be good on yearling heifers.

We breed these cattle to perform well in the pasture as well as the lot. We have a lot of data on cattle we have fed over the years. With the price of grain and hay - these cattle have to be very efficient.

Thank you to all our past customers! We really appreciate your business. If we can help with information about the bulls, sale or delivery, give Adam or myself a call.

Thanks again,

Clinton Clark

Sale Contacts

Cell	719-464-1942

Sale Location

La Junta Livestock Commission Co.
24026 CR 30.25, La Junta, CO 81050
Located on the east side of La Junta, on the south side of U.S.
Highway 50.

Online Broadcast

Online bidding will be available through LMA Auctions. To watch the live broadcast and bid online, visit www.LMAAuctions.com to register and apply for bidding. We recommend getting approved to bid at least 48 hours prior to the sale. If you have any questions or need assistance, please call LMA Auctions at 800-821-2048.

For those who would like to watch the sale **ONLY**, it can also be viewed at www.lmaauctions.com to see a live feed and audio of the sale. Although you cannot bid from this platform, feel free to give us a call to place a bid during the sale:

Adam Nuss	719-464-1942
Sarah Nuss	970-310-8842
Keo Honey	719-469-7784

Please try to call in advance and give us a heads up so you don't miss your bull.

Absentee Bids

Mailed or telephoned bids will be handled in all confidence if you are unable to attend the sale. Please contact La Junta Livestock or Clinton Clark in advance of the auction so we may assist you sale day.

Inspection of Cattle

Bulls are available for your inspection at any time on the ranch, so please call if you need directions. The bulls will be in the La Junta Livestock yards on Tuesday, April 11, 2023.

Registration

A certificate of registry will be transferred to the buyer on each registered animal sold after settlement has been made.

Health

At branding: 7-way with pink eye, Pyramid 5 and Mult Min 90.
At weaning: 7-way booster with pink eye, Pyramid 5, Autogenous Bacterin, and Mult Min 90.
Winter: Pour-on Ivermectin
Spring: As is done in some bull tests, every bull was given a magnet to help prevent hardware disease.

All bulls have passed a fertility test and breeding soundness exam. All 2-yr old bulls have been Trich tested.

Announcements

A supplement sheet will be available sale day with any up-to-date information, including scrotal measurements and current bull weights. This sheet and any announcements made from the auction block will take precedence over statements in this catalog.

Guarantee

All bulls are guaranteed to be breeders. Bulls are guaranteed against breeding injury for the first breeding season, which is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided or if the buyer prefers, credit will be given toward a bull at the following year's sale, less salvage value of the injured bull. Notification must be given to Clinton Clark prior to selling the injured bull.

Delivery

Free delivery to customers in the central US who purchase a bull for \$4,000 and up. All other customers we will split delivery costs with you 50/50.

37B is a black, polled 7/8 Salers bull from White Woman Creek Salers in Leoti, KS. He is thick made and was a top gainer at the Southwest Nebraska Bull Test. His birth weight was 80 lbs. (ratio 90) and his weaning weight was 599 lbs. (ratio 103). His EPDs are very good with low birth weight, high growth, and REA in the top 5% of the breed. He is a trait leader in docility. He is sired by the popular Out West and goes back 5 generations on the bottom side to the French import bull, Prince (344).

2E is another AI calf by Sensation. He has great calving ease, high milk, great udders on his daughters and his sons are full of meat. He's in the top 2% for CED, top 3% for BW, and top 5% in both MCW and UDDR, as well as top 4% in MCE.

EPD KEY

BW = birth weight
WW = weaning weight
YW = yearling weight
SC = scrotal circumference
MILK = milk
MAT = milk + growth

FAT = fat
REA = rib eye area
MARB = marbling score
%RY = percent retail yield (Salers)
CW = carcass weight (Salers)
DOC = docility
CED = calving ease direct

CEM/MCE = calving ease maternal
MCW = mature cow weight (Hereford)
BMI = baldy maternal index (Hereford)
BII = Brahman influence index (Hereford)
CHB = Certified Hereford Beef index (Hereford)

*A note about Angus and Optimizer Sires:

When sires of other breeds enter the Salers pedigrees, their EPDs all start out at zero. Therefore, sons of these Angus and Optimizer bulls will have lower EPDs.

For years we have selected Angus bulls that can handle high altitude.

American Salers Association

GOLD DAMS EXPLAINED

Cattlemen are looking for cattle with optimum efficiency to enhance profitability and contribute to the competitiveness of the beef industry. They are dependent on cattle that not only perform with optimum efficiency but also enhance offspring performance. The American Salers Association is proud to promote a breed that offers optimum efficiency and awards Salers breeders for producing superior cattle.

The ASA Gold Sire and Dam program recognizes Salers breeders' top producing cows within a herd based on number of calves weaned per cow exposed and weaning weight of calves. Cows and sires can be recognized from any environment because the list is based on within herd performance.

To become a Gold Dam, cows must meet a tough selection criteria.

- Gold Dams must have had a calf before they are 2.3 years of age and calve within a 395 day calving interval which allows the producers to calve heifers earlier than the main cow herd.
- Dam's must have a minimum of three natural (non-ET) calves with an average weaning ratio greater than 105.
- These are the top quality, most efficient cows in a herd. Only the top 2% of the registered cows make the Golden Dam list.

Gold Sires - Salers bulls can earn the title of Gold Sires by siring five or more Gold Dams. Gold Dams and Sires can be identified in Salers pedigrees by an (*) behind each name in the pedigree.

Clark Anvil Ranch had 14 Gold Dam's in 2021 and 12 Gold Dam's in 2022!
